

# EurikaWax LP 200

**EurikaWax LP 200** is a hard, low viscosity, medium melt point polyethylene wax ideal for use in coatings, adhesives and plastics, where high lubricity, reasonable wear resistance and strong viscosity modification are required.

## Typical properties

Appearance	Powder
Melting Point	108°C
Droppoint	112 °C
Penetration, @25°C, 1/10 mm	0,6
Viscosity, @125°C, cPs	16
Viscosity, @150°C, cPs	12
Volatile Content, @ 105°C	0,02%
